Maths

	National 2016	School 2016
Percentage of pupils meeting Age Related Expectations	73%	81%
Percentage of pupils exceeding Age Related Expectations	18%	17%

KS1 2016

The data in the following table has been collated from teacher assessments made using the DfE Interim Assessment Frameworks for the end of KS1. These are a list of key skills that must be achieved in order to reach Age Related Expectations (ARE).

Please note that results from 2016 and earlier years are not comparable due to the change in assessment procedures and criteria. Age related expectations are much higher than in previous years.
